

Visegrad Network

FOR MICROELECTRONICS ENGINEERING SCIENTISTS

VINmes (Visegrad Network for Microelectronics Engineering Scientists) aims to enhance the cooperation between the universities and research institutes in the Visegrad region (V4) and surrounding countries. VINmes brings conferences and journals in the field of microelectronics engineering together and thus improve the publication success rate. The main purpose of the VINmes is to help young scientist from V4 region with their first journal publications in microelectronics technology field.
